

Young Talents for Innovative Industries

powered by 3 Innovation Boosters, supported by Innosuisse

You are open to radical ideas?
You are keen on thinking out of the box?
You like to learn from others?

Then join our 2-day workshop! Let's create together with companies and experts cool and innovative solutions for the sake of our society. We bring together the technologies of Additive Manufacturing (AM), Microtech, and Photonics to identify new opportunities for radical innovation.

Program

Thursday, 15. February 2024, 10:00 – 17:00 & Social event

- Introduction into workshop
- Visit company Bien-Air Dental SA, Biel/Bienne
- Workshop on “understanding Bien-Air’s challenges” & “developing and presenting ideas”
- Pitching of the ideas and ceremony: 2'000.- CHF – award for the best idea presented
- Social event and night in Biel (everything is organized by the Innovation Boosters, except transportation costs)

Friday, 16. February 2024, 09:00 – 17:00
